FAX-Registration for Workshop Programme on 18.06.2008

Please return until 13.06.2008 to ++49 228 184 96 29

Workshop 1: deegree 3D

Since Google Earth has been released, 3D geo applications become more and more common. The deegree-3D workshop will demonstrate deegree in the context of 3-dimensional geodata. You will learn how to set up and configure deegree Web Perspective View Service (WPVS) to publish 3D-views.

Workshop 2: deegree configuration

Spatial Data Infrastructure (SDI) users are often overwhelmed by the complexity of deegree web services and iGeoPortal. This workshop targets users who are not very much experienced in deegree administration and who want to learn how to use deegree's ConfigTool. A DVD containing all necessary components to instantly set up and run an SDI will be introduced.

last name, first name

affiliation

street, number / postbox

postal code, city

telephone / fax

e-mail

I want to register for workshop 1 [] / workshop 2 [] (only one workshop may be selected due to parallel sessions). This registration is binding. I am aware that I need to bring my own notebook. The fee of 300 EUR (150 EUR for students, see proof attached) has been payed to the account stated below.

[] I request the workshop to be held in English.
